

Age (10-19/20-29/30-39/40-49/50-59/60-69/70-79/80-89/90-99)

Residence (Hokkaido / other)

Gender (male / female)

● Please tell us how much you use science in your daily life.

• How do you obtain information about science? (Mark all that apply)

1. Science magazines
2. Science television programs
3. Newspapers
4. Televised news
5. The Internet
6. Other()

★ According to the latest science topics below, which do you find most interesting?

- 1 Hayabusa
- 2 Induced pluripotent stem cells (iPS cells)
- 3 Nuclear power plant
- 4 Alzheimer
- 5 Bovine spongiform encephalopathy (BSE)
- 6 Organic transplant
- 7 Gene recombination technology
- 8 Green fluorescent protein (GFP)
- 9 Suzuki coupling
- 10 Global warming
- 11 Acid rain
- 12 The ozone hole
- 13 Lifestyle diseases
- 14 Smart phones
- 15 Anti-aging
- 16 Radioactive pollution
- 17 Other()

★ Below are some True or False questions about iPS cells. You do not have to worry about whether your answers are correct or not.

1. Gene recombination technology is used for iPS cells. (True/False)
2. By using iPS cells, we can prevent organs from getting cancer. (True/False)
3. The cloned sheep Dolly was created by using iPS cells. (True/False)

★ If there was a different kind of science event by university students, would you be interested in attending?

1. Yes, of course.
2. Yes, most likely.
3. Not sure
4. No, probably not.
5. No, of course not.
