

# Meeting Notes july 7 2011

Visa reimbursement can be done in a standard way

- ECTS and marks - everyone should keep number of hours spent on the project
- We have no new biobricks for safety proposal, Olesja will put some questions on the wiki.
- Safety prediction tool will be included in the modeling tools
- Assembly of the measuring parts is almost completed.
- Modeling was discussed during meeting with Matthias.
- In September, new version of the song will be recorded. Beginning of September there will be details about lessons in schools. Mixed experiments and lectures will be good.
- In order to get clothing we first need a logo. The logo idea will be developed until the end of next week.
